Residents Concerns.

The residents present enquired if they would be able to hold a street party for the Queen's Platinum Jubilee. The Council agreed that this would be a good idea.

The parish was linear with no pacific centre and other parts of the Parish were holding their own celebrations.

The Council had already taken part in a tree planting exercise, as part of the Queen's Platinum Jubilee celebrations. Young native trees had been planted on the Mounds at Clowbridge by parish Council members,volunteers and the children from Moorland View children's home.

The millennium capsule had been placed under the millennium bench on the
